THE PROBLEM

800 STUDENTS. WEEK 3. STUDYING ALONE.

Intro CS first-years don't know anyone yet. "Looking for a study group" threads get dozens of replies and no matches.

HOW IT WORKS

YOUR NOTES DECIDE YOUR GROUP

NOTES

Paste lecture notes or a problem-set attempt

→

CLAUDE

Labels what you're stuck on from 40 fixed course concepts

→

OVERLAP

Scores classmates by shared stuck concepts

→

GROUP

Three matches, one click to join

WHAT'S NEW

MATCHED ON CONFUSION

01

STUCK, NOT FREE

Others match schedules. We match the concept you can't get past.

02

SHARED VOCABULARY

Syllabus concepts make any two students' notes comparable.

03

ZERO SETUP

Paste notes, get a group. No profile, no survey.

> “ Nobody should learn recursion alone.

WHAT'S NEXT

EVERY INTRO CLASS, EVERY WEEK.

Pull concepts from any course syllabus automatically, then pilot with one CS 61A discussion section.
